EXPERIENCE

Bungie, Inc. (August 2021 – June 2026)

Senior Activity Designer

Destiny 2: Monument of Triumph June 9, 2026
Destiny 2: Ash & Iron Sep. 9, 2025
Destiny 2: Rite of the Nine May 6, 2025
Destiny 2: Heresy Feb. 4, 2025
Destiny 2: Echoes June 11, 2024
Destiny 2: Season of the Witch Aug. 22, 2023

- Owned and implemented major features from concept to final product. Served as vision holder, collaborating with other designers on the feature and coordinating with other departments.
- Pitched new game modes and unique concepts to project leadership.
- Generated, maintained, and contributed to design and studio wide documentation with both written and visual elements.
- Created complex and unique activities, puzzles, and encounters.

Activity Designer

Destiny 2: Season of Defiance Feb. 28, 2023
Destiny 2: Season of Plunder Aug. 23, 2022
Destiny 2: Season of the Risen Feb. 22, 2022

- Owned features taking them from concept to final product requiring clear documentation and collaboration with other disciplines.
- Implemented activity flow, combat encounters, and other features using a proprietary engine and a syntax-based scripting language.

Deck Nine Games (October 2016 – July 2021)

Lead Level Designer

Life is Strange: True Colors – Wavelengths Sept. 30, 2021
Life is Strange: True Colors Sept. 10, 2021
Life is Strange: Before the Storm – Farewell Mar. 5, 2018

- Managed a small team of level designers, ran a hiring cycle to expand the team, and provided feedback and direction on the team's work.
- Served as point of contact for the level design department working with studio leadership on high level creative decisions and our client to respond to feedback and ensure continued confidence in the team.
- Generated and maintained high-quality design and technical documentation with both written and visual elements.
- Created narrative-driven levels using Unreal Engine 4, Unity, and proprietary tools, requiring close coordination with other departments.
- Ported, updated, and created tools and editor extensions in Unreal Engine 4 using C++ and Blueprints to assist level design and other departments.

Level Designer

Life is Strange: Before the Storm Dec. 20, 2017

- Crafted multiple narrative-driven levels using Unity and proprietary tools, taking them from greybox to polished final product.
- Created editor extensions in Unity using C# to assist the level design team.
- Helped influence the processes, pipelines, and tools of a growing studio.

TOOLS

Experienced: Unreal Engine 4, Unity, C#, Jira, Confluence, Perforce, Microsoft Office

Familiar: Godot, Maya, C++, Blueprints, Visual Studio, Photoshop, Illustrator, Git

SKILLS
